Re: U.S. EPA UAO - Docket No. V-W-99-C-554
Time Critical Removal Action Work Plan for
Dead Creek Sediment and Soil Removal and TSCA Containment Cell
Sauget and Cahokia, Illinois

Dear Mr Light,

Attached are responses/comments for the above referenced Work Plan. The reviewers are:

1. U.S. EPA (myself and Mike McAteer)
2. Illinois EPA (Candy Morin)
3. Illinois DNR (Steve Davis)
4. U.S. Fish and Wildlife Service (Richard Nelson)

One reviewer, Rob Watson (Illinois EPA) has not yet finished his review. He will send his comments directly to you under separate cover. After you receive his comments, and following a reasonable time frame (say two weeks), I suggest we meet face to face and discuss each comment as necessary and outline the next steps. I will call you in a couple of weeks to arrange such a meeting and coordinate the schedules of all parties involved.

If you have any questions, call me at (618) 997-0115.

Sincerely,

Kevin Turner
On-Scene Coordinator

cc: Tom Martin - U.S. EPA
Candy Morin - IEPA
Richard Nelson - U.S. F&WS

~~Mike McAteer~~ - U.S. EPA
Steve Davis - IDNR
